

Type 2 sound meter with one-button operation

The Sound Level Pen is the smallest, lightest, easiest-to-carry sound meter in the world. Despite its small size, the Sound Level Pen is a fully functioning type 2¹ sound meter, perfect for testing OSHA requirements and most other sound meter applications. Auto-ranging with simple one-button operation. Press once to begin reading sound levels. Press the button a second time and the display holds the maximum reading, updating as new maximums are reached. Hold the button for 2 seconds to turn the unit off. Measures the 32 ~ 130 dB range in the “A” scale, with an accuracy of ±1.5 dB. The display provides 0.1 dB resolution, under range, over range and low battery indicators. The Sound Level Pen calibrates electronically to its own internal oscillator² or external 2-Pt. Acoustical Calibrator (850016). Comes ready to use with 2 AAA batteries, instructions, calibration tool, and a wind screen.

DIM: 8" × 1½" × 1" (206 × 42 × 25 mm). WEIGHT: 3½ oz (100 g) including batteries.

¹Meets ANSI S1.4 Type 2 and IEC61672-1 Class 2.

²94 dB at 1kHz.

U.S. Patent 7,270,006
